

Loading control antibodies

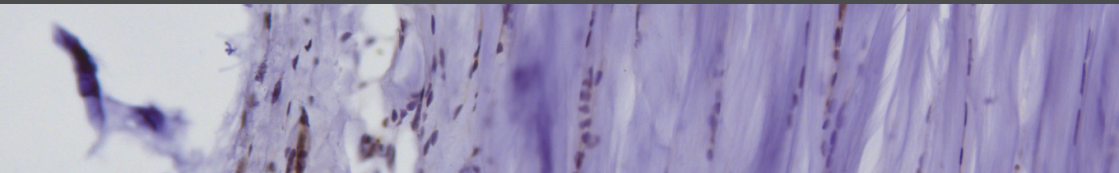

Loading controls are essential to ensure the reliability of your data. Our selection of loading controls for western blot and other applications covers a wide range of molecular weight proteins suitable for your experiment. We have 19 different targets available for your research needs from antibodies with multiple validations and reviews

Anti-beta-actin antibody [STJ96930]

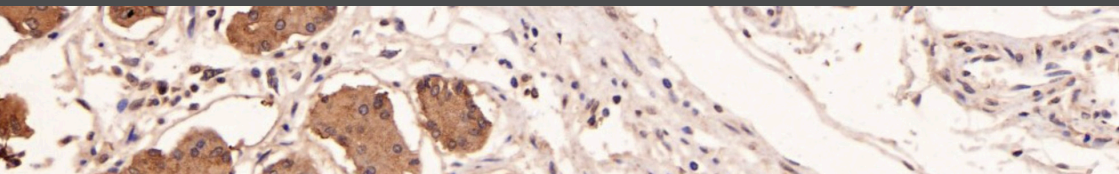

Short Description	Mouse monoclonal to beta-actin
Host	Mouse
Clonality	Monoclonal
Reactivity	Avian, Canine, Hamster, Human, Insect, Mouse, Rabbit, Rat, Simian
Applications	FC, IHC, WB

Anti-PCNA antibody [STJ94982]

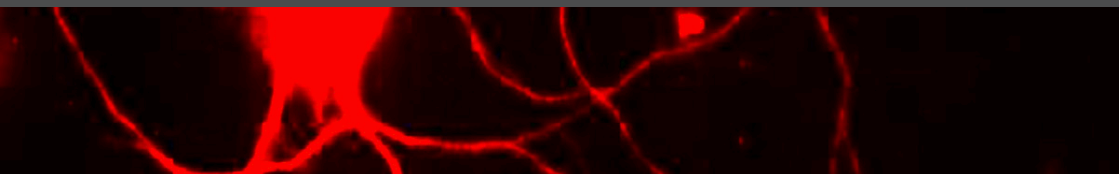

Short Description	Rabbit polyclonal to PCNA
Host	Rabbit
Clonality	Polyclonal
Reactivity	Human, Mouse, Rat, Simian
Applications	ELISA, IHC, WB

Anti-GAPDH antibody[STJ96931]

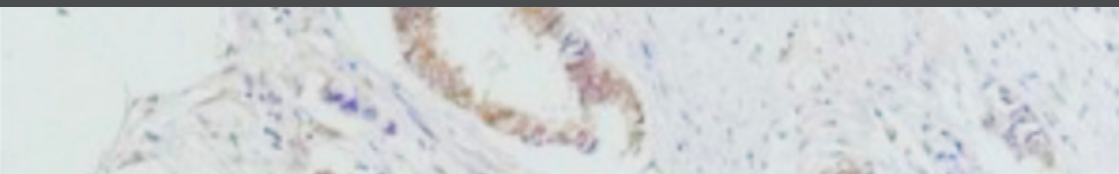

Short Description	Mouse monoclonal to GAPDH
Host	Mouse
Clonality	Monoclonal
Reactivity	Bovine, Canine, Hamster, Human, Insect, Mouse, Rabbit, Rat, Sheep, Simian, Swine, Yeast
Applications	IHC, WB

Anti-beta III Tubulin antibody[STJ97123]

Short Description	Rabbit polyclonal to beta III Tubulin
Host	Rabbit
Clonality	Polyclonal
Reactivity	Human, Mouse, Rat
Applications	FC, IF, WB

Anti-p21 antibody[STJ97470]

Short Description	Rabbit polyclonal to p21
Host	Rabbit
Clonality	Polyclonal
Reactivity	Human, Mouse, Rat
Applications	IHC, WB
