## Multiplex Assay Kit

### More Economical Method of Target Detecting

#### Time Saving

A maximum of 8 targets are detected in one experiment

#### Sample Saving

Only add sample once, sample volume 20-50ul

#### Fund Saving

Over 8 targets: save fund up to 50%

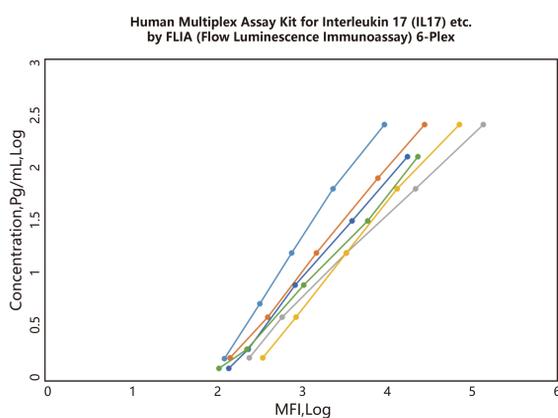

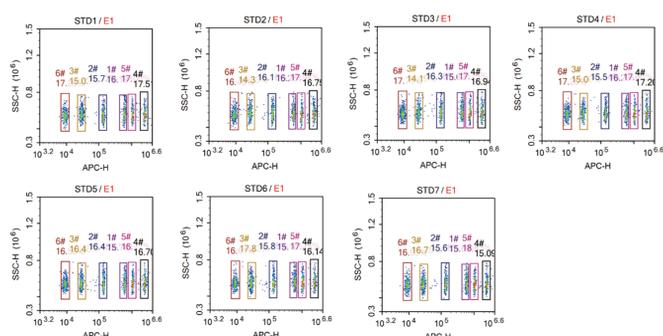

Provide testing services

**6325**  
Targets  
matching at will

**1-3**  
Weeks  
delivering

### Flow Cytometry Testing Platform

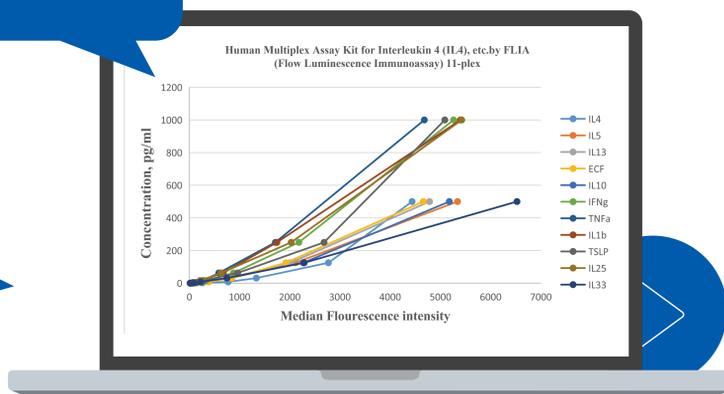

### Luminex Testing Platform

Multiple targets are detected at the same time to avoid variation of sample and reaction time difference.

Eliminate all uncontrollable factors with detection of better comparability, statisticality and statisticability.

Eliminate uncontrollable factors to improve the comparability and statisticability of experimental results.
